EEA #16332 – Old Pine Drive Well Development (Hanson)

The Town of Hanson proposes to construct a new water supply source for its residents and businesses. The Town's existing four wells have a MassDEP-approved yield of 1.364 million gallons per day, but normally cannot produce that much, especially in drier seasons. During times when additional water supply is needed, the Town purchases water from the City of Brockton's water system. Construction of a new in-town water supply source will allow Hanson to be independent of Brockton for its water demands, will provide consistent water quality to the Hanson customers, and will allow Hanson to better balance its withdrawals with respect to the town basins in which Hanson lies.

Certificate states that this project does not require an Environmental Impact Report (EIR)

Old Colony Planning Council fully complies with Title VI of the Civil Rights Act of 1964 and related statutes and regulations in all programs and activities. The Old Colony Planning Council operates without regard to race, color, or national origin (including limited English proficiency), age, sex, disability, ancestry, ethnicity, gender, gender identity or expression, sexual orientation, religion, creed, veteran's status, or background. Any person who believes that they or any specific class of persons to be subject to discrimination prohibited by Title VI may by themselves or by a representative file a written complaint with the Old Colony Planning Council. Complaints are to be filed no later than 180 days from the date of the alleged discrimination. This meeting is accessible to people with disabilities and those with limited English proficiency. Accessibility accommodations and language services will be provided free of charge, upon request, as available. Please contact Mary Waldron at 508583-1833 Extension 202 for more information.
